Name of centre:

Lille University Hospital, Jeanne de Flandre Hospital
Av. Eugène Avinée
59000 Lille, France

Treatment of children/adults:

Children (page 2)

Adults

Treatment of children:

Department of treatment for children: Pediatric Gastroenterology Hepatology and Nutrition Unit.
Home pediatric parenteral nutrition Unit.

Introductory text:

Our center is one of the 6 pediatric authorized centers in France for home parenteral nutrition. We are a multidisciplinary team of pediatric and adult GI, pediatric surgeons, pharmacists, anesthesiologists, coordination nurses, dieticians, speech therapist and psychologists devoted to intestinal rehabilitation and prolonged parenteral nutrition. We are localized in a large tertiary pediatric center in the North of France (dealing with more than 4.5 million inhabitants), have a 20 beds hospitalization devoted to gastroenterology hepatology and nutrition diseases, and a home parenteral nutrition program (both for adults and children). We have every day 35-40 children at home with parenteral nutrition (and 200 adults).
